Traverse Engineering Services, P.C.
100 Quincy Street
PO Box 655
Hancock, MI

Attn: Mr. Richard Supina

Moyle Construction would like to request access to homes and structures within the 500' vicinity of the proposed blasting areas to conduct a pre blasting inspection. Knowing that it might take a few weeks to gain access to many or the residences, we feel that we need to begin the process as soon as possible.

Sincerely,

Philip L Baranowski
Project Manager
